

TOPPINGS AND OTHER MATERIALS

This is a period of great change in Toppings, Headliners and other materials used in convertibles. Many new convertibles are being introduced and Automotive Design and Styling departments want to use new toppings and colors to obtain a fresh new look. Toppings and colors previously in use are then discontinued. Simply keeping abreast of all the changes in toppings and headliner materials is a challenge, and keeping these various toppings in stock is difficult. Topping suppliers such as Haartz impose large minimum yardage requirements to run special colors of PVC Vinyl Toppings, and prohibitively high

requirements exist to order special colors of Cloth Toppings with the result that many toppings are being discontinued at a rapid rate. It is no longer possible to list all colors and toppings, headliners and other materials in our Catalog, since any list of colors becomes obsolete almost immediately. Instead we will list only **basic colors, and ask our Customers to use our Topping Sample System, or consult our website at www.robbinsautotopco.com to see the full range of toppings, colors and headliner materials we currently have available.**

PVC VINYL SPORT TOPPINGS

CG-BISON (CRUSH) GRAIN 36 Ounce Weight SINGLE TEXTURE VINYL

Made by Haartz, the dull finish of our CG Bison Grain Vinyl offers a distinctive appearance and sets the industry standard for durability.

SS-SAILCLOTH SINGLE TEXTURE VINYL with Gray Polyester/Cotton Blend Backing.

This single Texture Vinyl is run on a polyester/cotton blend backing which is much stronger than 100% cotton backings and is made by Haartz and other manufacturers. While the backing color is gray, as opposed to the black used in the past, we have found convertible owners do not as a rule notice this color change since both Chrysler and Mustang convertibles are equipped with headliners.

SG-ROBBINS SUN-FAST "G"® CLOTH with German Style Dobby Backing**

Robbins Sun-Fast "G" Cloth is manufactured by Topline Automotive using Glen Raven 100% Acrylic Twill Weave surface cloth in Black, Blue, Brown and Tan shades; and a standard weave for other colors. Our Sun-Fast "G" Cloth is made by laminating the surface cloth using the same superior rubber formulation we use in our Sun-Fast cloth to black or tan cotton or polyester doobby backing. Sun-Fast "G" cloth offers a rich appearance, especially in the Black, Blue and Brown Twill Weave shades; coupled with strength and tightly controlled stretch characteristics to insure that Tops do not sag or billow, or are so stiff that Tops become difficult to raise and lower. Products ordered in Robbins Sun-Fast "G" will offer a rich appearance and many years of service if cared for properly.

GR, GN GERMAN CLOTH -R & S (Haartz)

“Sonnenland Classic” with Cotton Dobby Backing; “Sonnenland Plus” and other German Cloth with 100% Polyester Dobby Backing.

Manufactured in Germany by Rode & Schwalenberg (R & S), a subsidiary of Haartz, these are first quality German Twill Weave Cloth Toppings made using Polyester/Acrylic blend surface cloth laminated with butyl rubber. The GR “Classic” topping is run on black or tan cotton doobby backing, while the GN “Plus” is run on Black 100% polyester doobby backing. The Polyester/Acrylic twill blend surface cloth has good resistance to fading in black, blue or brown colors, but there is no guarantee against fading for lighter colors. Sonnenland Classic is original for 1970-89 Mercedes SL, 1983-94 Porsche and many other models, Sonnenland Plus is original for 1990-2001 Mercedes SL.
